

Thank you for downloading my Counting to 10 Bug Puzzles

Tips For Getting Your Puzzles Ready

- Print the puzzles onto normal copy paper.
- Laminate your pages.
- Cut out the puzzles and have fun!

* If you can't laminate you can print the puzzles onto card stock instead but they will last longer if laminated.

These cute bug puzzles are so easy to use.

Ideas For Using These Counting Puzzles

For younger children who are just learning how to count to 10 you can help them build the puzzle. Then practice counting the numbers together.

As your child gets better at counting have them do more of the puzzle building on their own.

Take turns trying to build the puzzle by looking at the bug pictures to see how they fit together and other times using only the numbers.

Once your child has mastered counting to 10 with one puzzle try using 2 puzzles mixed up together. Keep adding puzzles to the mix as their skills improve.

Terms Of Use

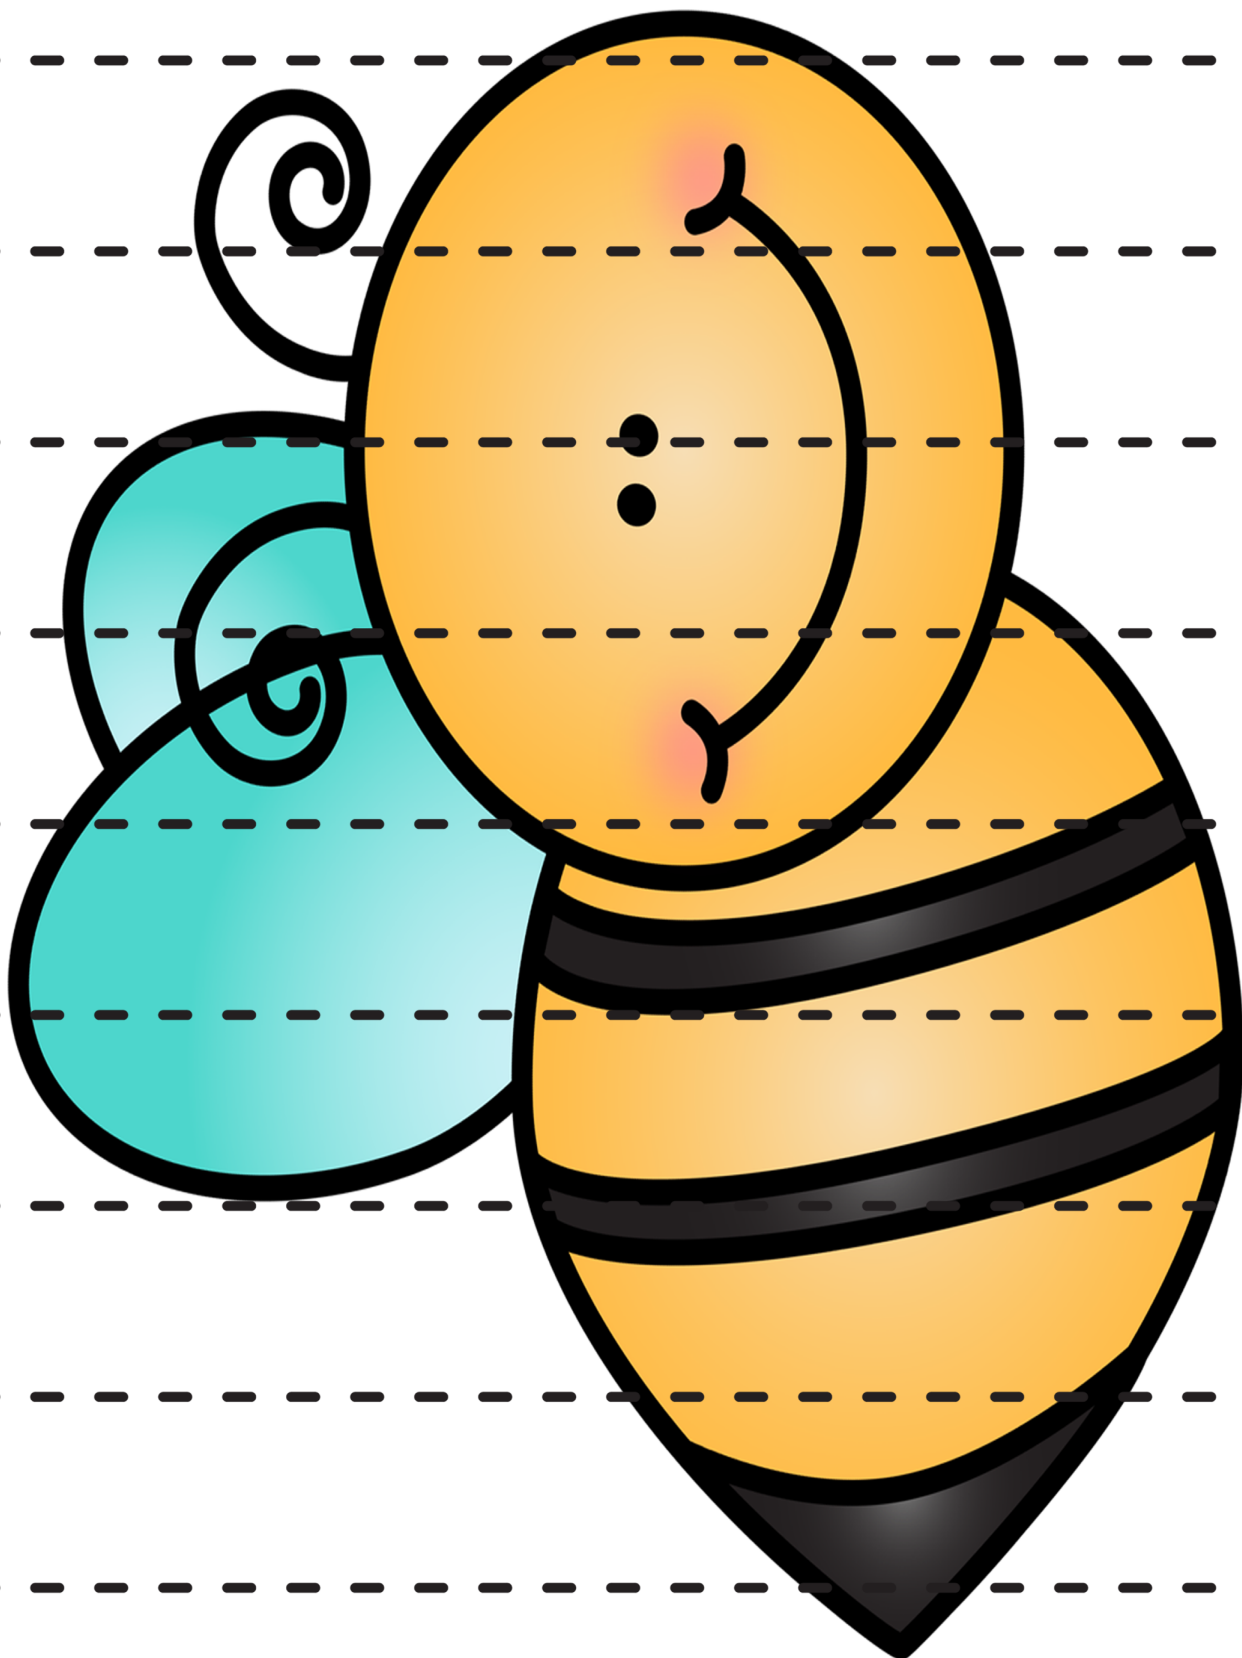

This file is for personal use only. This includes home, library, or classroom use. By downloading or using this file you agree that you will not copy these files except for your own personal use.

You May	You May Not
<ul style="list-style-type: none">• Print as many copies as you need for your own personal use.
